

# NEGOTIATING THE SINUS CAVITY: CRESTAL & LATERAL APPROACH FOR SINUS AUGMENTATION SURGERY

**Date:** January 26th 2019  
**Time:** 9:00AM – 5:00PM  
**AGD CODE:** 310, 490, 690  
**CE:** 7

**Course Location:**  
 Shikosha Dental Laboratory  
 1526SE Powell BLVD  
 Portland, OR 97202

## Course Descriptions

### Practical Approaches for Crestal/Lateral Approach Sinus Lift

Successful clinical implant dentistry requires a broad understanding and skill set to manage areas of deficient bone. One of the common challenges is addressing the upper maxillary posterior when the sinus has pneumatized. Augmentation, or “lifting”, of the sinus floor allows an opportunity to create more bone volume by utilizing some of the open space in the sinus cavity. Using bone grafting techniques, the maxillary ridge can be expanded to provide stability for dental implants. There are multiple ways of performing a sinus lift but two of the most popular methods are the crestal (internal) and lateral (window) approaches. Our unique take on these two common methods further minimizes the chance of sinus perforation, providing the safest and most comfortable options for your patients. This course is intended for dentists who already place dental implants and are ready to take on more challenging cases. Lecture and participation credits will be awarded upon completion.

### By the end of this course, doctors will be able to:

- Choose treatment options and design an appropriate surgical plan for more advanced implant cases
- Assess sinus anatomy, function, histology, the pneumatization process and why it occurs
- Analyze the early techniques of sinus grafting
- Explain the advantages and limitations of using the crestal and lateral approaches
- Identify the components of specialty surgical kits and associated tools, and elevate surgical skills through practice on a sinus model
- Determine how to avoid complications and manage complications if they arise

## ADA C.E.R.P.® | Continuing Education Recognition Program

AIC Education is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. AIC Education designates this activity for 7 continuing education credits.

\*AIC - Hiossen, Inc. / Advanced Dental Implant Research & Education Center (AIC) is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing dental education programs of this program provider are accepted by the AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 1/1/2017 to 12/31/2020. Provider ID #318822

### Registration / Cancellation / CE Credits

The number of registrations is limited for each course, and registration is accepted on a first come, first serve basis. Full tuition payment must accompany all registration forms. Upon receipt of this registration form and tuition fee, AIC Education will send you written confirmation. Confirming registrants who are unable to attend the course can obtain a refund by notifying AIC Education in writing no later than 14 days prior to the course date. Cancellations past that date will be subject to an additional penalty. AIC Education reserves the right to cancel a course no later than 14 days prior to the course date. Please be aware that AIC Education is not responsible for reimbursement of a non-refundable airline ticket or any other travel expenses in the event that a course is canceled. Continuing education credits awarded in the United States for participation in the CE activity may not apply toward license renewal in all states, countries or provinces. It is the responsibility of each participant to verify the requirements of their state, country or province.

## Course Instructors

### Dr. Caleb Coombs, Course Director

Dr. Caleb Coombs, DMD practices dentistry in Salem, OR. He earned a Doctorate of Medical dentistry from the Oregon Health and Sciences University in Portland, OR after completing his bachelors in biological sciences from Portland State University. After dental school, he sought advanced training in IV sedation. Dr. Coombs decided to elevate his expertise beyond the scope of general dentistry by continuing his training with a heavy emphasis on oral surgery and dental implants.

He has incorporated the most advanced technology in dentistry to provide each patient the very best treatment available. Dr. Coombs constantly aims to remain updated on the dynamic field of dental implants attending advanced training and lectures from the top implantologists across the United States. He is a detail oriented dentist and enjoys providing high-quality patient care.

With a background in general dentistry and a heavy emphasis on dental surgery it allows Dr. Coombs to incorporate a surgical plan with a solid prosthetic foundation from the beginning of each treatment plan. He enjoys learning and sharing his expertise with other doctors wishing to elevate their practice.

*The instructors for this course have no relevant financial relationships to disclose but are receiving reasonable honoraria for this presentation. Instructor honoraria is provided by Hiossen Implant.*
